Our commitment

First of all, a family story. Florence is Lucile's mother. Lucile is Eytan's mother. Eytan just turned 2: experiments from taking windows for a strawberry ice-cream to half-closed bleach containers.

So many experiences many mothers came to us with this question: what kind of reasonable, safe and long term alternatives exist to control the invisible invaders of our homes ?

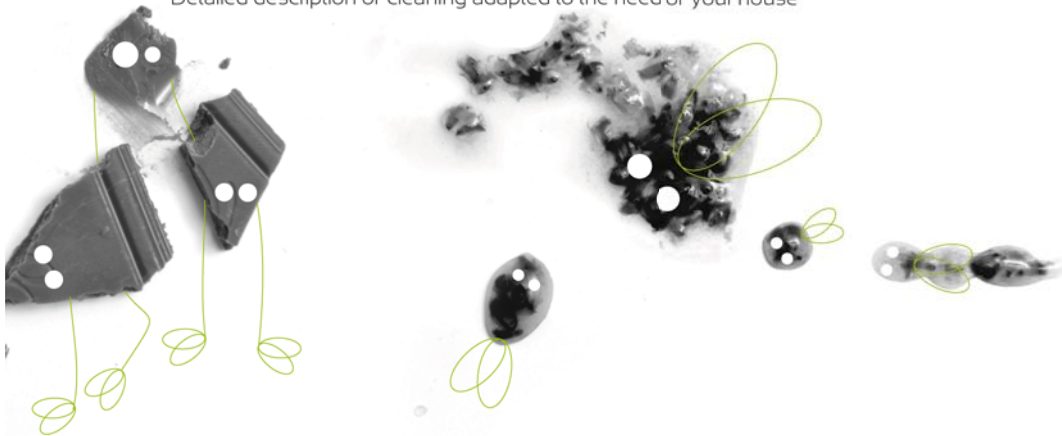

This is Arica's commitment: for the maintenance of your home and your well-being!
